SENIOR RESOURCE CENTER

All programs and services are free.

Now what?

Every newly appointed caregiver wishes to make the “right” decisions, the “best” choices, but uncertainty of where to begin and the tremendous sense of responsibility can be overwhelming, to say the least. These are certainly not the best circumstances to be making such monumental decisions.

Whether the need is nursing home or in-home care, assistance locating a support group or your own health and wellness needs, The Phoenixville Hospital Senior Resource Center is here for you. The Senior Resource Center’s primary goal is to provide “person-centered” guidance – information and resources to assist seniors and their caregivers in navigating the uncertain terrain of their unique aging process. Wellness programs and health screenings, which promote positive aging of mind, body and spirit, are offered as well.

We all know how lives can change in an instant. For an adult child of an elderly parent, we often fear that phone call – our loved one has fallen, suffered a stroke, received an unwelcome diagnosis or can no longer live alone.

We are here to assist you

The Phoenixville Hospital Senior Resource Center is open to all senior members of our community and their families and caregivers. The Center is a collaboration between Phoenixville Hospital and Suburban Geriatrics and is located on the Phoenixville Hospital campus in Medical Office Building I, Suite 202.

While the center cannot endorse any particular service provider, we can offer information to get you started on the right track and save you valuable time in your search for services such as:

- Assisted Living/Nursing Home Care
- Hospices and Palliative Care
- In-Home Care
- Transportation Options
- Caregiver Services
- Elder Crime and Abuse Victim’s Services
- Insurance Counseling
- Senior Housing
- Health Care and Prescription Assistance Programs
