Phoenixville Hospital is a 137-bed acute-care facility with clinical partnerships with the University of Pennsylvania Health System, The Children's Hospital of Philadelphia, The Philadelphia Hand Center, the Moore Eye Institute and Abington Memorial Hospital. The hospital provides comprehensive medical services through more than 27,000 emergency room visits, 8,200 inpatient admissions and more than 700 community outreach programs annually. Approximately 1,000 babies are delivered each year. A full range of services and programs are offered, including an award-winning cardiovascular program, fully-accredited cancer center, comprehensive women's health services, the area's largest Robotic Surgery Center, Level II CHOP NICU, and the Breast Health Center at Phoenixville.
